

The Mission of the Dunklin R-5 School District:
Educating Today for a Better Tomorrow

The Vision of the Dunklin R-5 School District:
Dunklin R-5 School District will demonstrate excellence in leadership, the development of character, and achievement for ALL students.

The Core Values of the Dunklin R-5 School District:
Respect, Responsibility, Integrity, Compassion, Perseverance

COVID-19 Response for the 2021-2022 School Year

**This Document is Subject to change as more information
regarding COVID-19 is made available.**

BOE APPROVED 11-16-2021

Introduction

As the COVID-19 pandemic continued through the summer of 2021, the Dunklin R-5 School District worked to create this “COVID-19 Response Plan” for the 2021-2022 school year that will allow as many students to physically and safely return to in-person learning. The District utilized the Back at it Blackcat Committee made up of over 45 faculty and staff members to work through the many processes and procedures for the 2021-2022 school year.

The plan and procedures listed below will be periodically reviewed and revised when necessary. Updates will be provided to the community via letters, social media, and public Board of Education meetings throughout the school year.

“Our children benefit from in-person learning, and safely returning to in-person instruction in fall of 2021 is a priority for Dunklin R-5 District Administration. Our schools are designed to educate students through social, face-to-face interactions, in relatively close spaces and in large groups. The benefits of this approach to education are well accepted. With an increased number of the population being vaccinated as well as new guidance from the CDC we are able to make changes to our reopening plans from the previous year. We also know our community prioritizes student and staff safety and expects a thoughtful COVID response plan. As we plan for the school year we will continue to monitor new information on the COVID-19 pandemic and make changes as needed based on cases in our schools and community and new research as it becomes available.

Our primary goal for the upcoming school year is to keep kids in the classroom as much as possible while maintaining a safe environment for all students and staff.

A layered strategy that uses multiple prevention and mitigation practices together is the most successful way to minimize viral transmission. Key components of this layered strategy includes:

Vaccination of eligible individuals.

Social Distance of 3 feet.

Isolation and Quarantine.

Frequent Handwashing.

Routine Cleaning.

Facial Coverings.

The Dunklin R-5 School District will be accessible to all students both online and in-person. Research over the course of this past year has clearly shown us the overwhelming benefits to in-person instruction. Therefore, there will be a process for any student who chooses to apply to attend courses virtually.

Virtual Blackcats

The application process for Virtual Blackcats, our online education option, will begin at the building where your child/children are enrolled in school. Enrollment procedures can be found on each school's website. Students who are not showing success in the Virtual Blackcats program, will be required to return to in person enrollment.

General Guidelines

The Dunklin R-5 School District is offering the following guidance based on local leadership decisions, which have been derived from guidelines established by the Center for Communicable Diseases (CDC). This is a “working document” and is subject to change, as new information is obtained and regulations evolve at local and regional levels.

Social Distancing

Social distancing of a minimum three (3)-feet is the best preventative measure. If an individual receives a positive test for COVID-19, everyone that was within 3 feet of an infected person for a **cumulative total of 15 minutes or more over a 24-hour period*** starting from 2 days before illness onset (or, for asymptomatic patients, 2 days prior to test specimen collection) until the time the patient is isolated will be asked to quarantine. However if students or staff are wearing facial coverings or are vaccinated they will not be asked to quarantine.

It is important to note that while the District will make every effort to provide a safe and healthy environment for our students and staff, **there are inherent risks** with participation in group activities during this time. Therefore, the District cannot guarantee that your child will not be exposed to the virus or those who may have been affected; but the District will continue to prioritize the safety of your child. We have come a long way since our first case in March of 2020. Our community is stronger, and safer because of what we have learned.

General Parameters:

The District will:

- ✓ Limit nonessential visitors into the school.
- ✓ Have procedures in place for staff or students when they become or are sick.
- ✓ Establish social distancing protocols of three (3) feet for various activities during the school day to the best extent possible—classroom, cafeteria, gymnasium, playground, etc
- ✓ Continue to practice mitigation strategies that research has shown to be effective.
- ✓ Require facial coverings when social distancing is not possible.

Staff

The District will:

Ask staff not to report to work should they have any symptoms of COVID-19.

To maximize protection from the Delta variant and prevent possibly spreading it to others, staff will wear a mask indoors when social distancing is not possible.

People who are fully vaccinated do NOT need to quarantine after contact with someone who had COVID-19 unless they have symptoms.

Screening-Students

The District will: Implement a health screening for all students reporting to school.

- ✓ The District will provide a protocol for parents to screen their children before sending them to school. This will include screening questions.
 - o [Link to questions](#)

When Someone Is Sick

Encourage staff and students to stay home when they are feeling ill. This message will continually be communicated to staff, parents, and students.

CDC [COVID Isolation and quarantine](#)

Students who are fully vaccinated do NOT need to quarantine after contact with someone who had COVID-19 unless they have symptoms.

Students Entering Quarantine Expectations

The District will: (when someone is identified with symptoms):

- ✓ Remove the individual immediately if NOT vaccinated.
 - o If it's a staff member, that individual will be sent home immediately.
 - o If it is a student, they will be removed from the classroom until arrangements can be made for them to be picked up by a parent or guardian.
- ✓ The person should be advised to contact a healthcare provider if they exhibit symptoms or answer YES to any screening question/s.
- ✓ The healthcare provider will be able to determine whether the symptoms are a result of COVID-19 infection or if there are other health issues.
- ✓ Contact one's local health agency.
 - o They will assist when it is acceptable for the person to return to work or school.
- ✓ Follow the guidance of the CDC regarding contact tracing, classroom or school closure, notification of community, sanitizing protocols, etc.

Transportation

The District will:

- ✓ Follow the federal mandate requiring masks being worn on buses at all times.
- ✓ Parents are encouraged to transport students to and from school, if possible.
- ✓ Assign seats to reduce transmission and assist with contact tracing if necessary.

Food Service

[Food Service Procedures](#)

Facial Coverings

How to use a mask to protect yourself from COVID-19

The District will:

- ✓ Faculty and staff members will be required to wear masks when unable to social distance less than 3 feet.
- ✓ Follow the federal mandate requiring masks being worn on buses at all times.
- ✓ Outside visitors will be limited. Vendors and Repairmen will be required to wear masks if they are in the building while students are in attendance.
- ✓ When students are physically present on campus, face coverings will be required when social distancing is not possible.
- ✓ Students who are in a high-risk group (previous health concerns, immune deficiency, etc.) will be highly encouraged to wear a face mask at all times.
- ✓ Remove any student from the classroom who becomes ill.

Mask requirements for students in grades K-12 will remain in place until the Center for Disease Control and Prevention (CDC) community metrics for low or moderate transmission in Jefferson County is for 21 consecutive calendar days. This information can be found at https://covid.cdc.gov/covid-data-tracker/#county-view%7CRisk%7Ccommunity_transmission_level

	Low Transmission No Masks	Moderate Transmission No Masks	Substantial Transmission Masks	High Transmission Masks
Cases per 100,000 over 7 days per Jefferson County numbers	0-9	10-49	50-99	100+
Positivity	<5%	5% to 7.9%	8-9.9%	10%+

The Superintendent may make adjustments to this plan as CDC Guidance changes, a report will be made to the Board of Education in the weekly written communication as well as communication at the regularly scheduled Board of Education meeting. **If Jefferson County transmission rate is at a High Transmission Rate (10% or >) for 10 consecutive calendar days**

then the district will once again require masks. This would be tracked at the same link as above.

Hand Washing- Staff and Students

[Elementary Lesson for Handwashing](#)

[Middle/High School Lesson for Handwashing](#)

Water Fountains-Staff and Students

The District will:

- ✓ Avoid groups congregating around water fountains waiting for access.
- ✓ Allow use of water fountains for filling water bottles only. Students will be encouraged to bring a water bottle from home.

Student Restrooms/Usage

The District will:

- ✓ Limit the number of students in the restroom.
- ✓ Administer at least one deep cleaning a day and clean/wipe down high touch surfaces throughout the day.
- ✓ Implement scheduled restroom breaks so each grade/class can go at a specific time and avoid mixing students from different classes.
- ✓ Mark spaces outside restrooms to provide visual cues to ensure social distancing while waiting.

Continuity of Services

The Dunklin R-5 School District students have had access to fully in-person learning, five days per week since the fall of 2020. During the 2021-22 school year, should there be any interruptions of in-person learning, the District will provide for the academic needs for students in the following manner:

- **Hardware:** Dunklin R-5 students in grades 6-12 are issued a Chromebook. In grades K-5 Chromebooks are available for checkout to be used at home during an unexpected school closure
- **Internet Access:** Dunklin R-5 students who do not have access at home have already been given or will receive a HotSpot device free of charge for internet access.
- **Learning Management System:** All students in K-12 will use the Google Platform including Google Classroom for lesson delivery and communication between school and home.
- **Software Applications:** Dunklin R-5 students will have access to any necessary applications necessary to deliver the learning goals of the lesson. Teachers may also use the Google Meet platform for classroom discussions, meetings, etc.

Building Plans for the 2021-2022 School Year
